BUCKEYE CAREER CENTER PARTNERS WITH ALLIED MACHINE TO HOST CAREER-TECHNICAL SIGNING DAY EVENT

New Philadelphia, OH (May 8, 2018) – Buckeye Career Center, in partnership with Allied Machine & Engineering, hosted a career-technical “Signing Day” event, Tuesday, May 8th to celebrate the fulltime employment of four Buckeye seniors. The signing ceremony featured students who were hired fulltime at Allied during the school year and will continue their employment following graduation. The event was similar to an athletic signing event but company officials and Buckeye Career Center believe it is even more important to highlight students who are achieving their work goals. “This is a great way to celebrate one of our most important accomplishments as a career center,” said Buckeye Superintendent Bob Alsept. “We are very proud that our skilled students are moving into fulltime employment with a wonderful company like Allied Machine & Engineering.” The new Allied employees and soon-to-be Buckeye graduates include Chevelle Carothers (Precision Machining and Welding) from Claymont, Lucian Garcias-Miller (Precision Machining) from Dover, Luke Burton (Precision Machining) from Dover, and Jacob Herman (Precision Machining) from Conotton Valley. Carothers will serve as a gen two machine operator, Miller as a round-tool specialist, Burton as an OD grind operator, and Herman as a round tool specialist. The students were joined at the ceremony by family, BCC administration, Allied officials, and BCC Precision Machining instructor Mr. Bob LaFollette
